CREDO

We strive to preserve, protect, and promote the health and well-being of
Cameron County residents.

We believe it is our mission to provide quality health care through the provision of services
that are accessible, community based and focus on disease prevention,
health promotion and health education.

We believe in a vision that Cameron County residents should have access to public
health and community services so that we all live and work in a
healthier, safer, and prepared community.

We believe employees must adhere to high standards of public service that emphasizes
professionalism, courtesy, and avoidance of even the appearance of illegal or
unethical conduct.

We believe employees are expected to carry out efficiently the work items assigned
as their responsibility to maintain good moral conduct, and to do their part in
maintaining good relationships with the general public, with other governmental
officials, with their supervisors, and with fellow employees.

We believe employees are available to assist during any natural disaster or emergency.

We believe in a commitment to equal employment opportunity without regard to
race, color, religion, national origin, sex, age, handicap or veteran's status.
